GILA RIVER CENTER APPRECIATES FARM PRODUCE FROM TULE LAKE

That the Project farm workers' sweat and toil is fully appreciated was evidenced by a letter received by the farm supervisor of this Project from the senior steward of the Gila River Relocation Center in Rivers, Ariz. The letter follows:

DEAR SIR:

On September 9, 1942, we received 209 crates of turnips and 136 crates of beets from Tule Lake.

Thank you very much for this shipment. We, of this camp, were very glad to receive them as they are the fruit of you and your men's toils. We have just started to plant vegetables in our fields, so it is our hope that we will be able to send some of them to your camp in the near future.

I would like to know at your convenience how things are coming along in your camp. I shall be glad to write to you about ours.

Very truly yours,
Eddy Tanada
Senior Steward

PROJECT AREA IS VARIED

Hikers will be free to go outside the Project center into the Project area, but not beyond the signs posted at the limits of the area. Walking on the highway proper is not permitted.

TOM YEGO LEAVES CAMP TO OBTAIN SCHOOL SUPPLY

To make arrangement for the transfer of his packing house equipment to Tule Lake, where it will be used by the agricultural department, Tom Yego left for his home in Placer county Thursday.

The City's produce shipping house has been handicapped by lack of equipment. Efforts to purchase the needed equipment have been difficult since the factories have stopped producing them.

Yego will also arrange for the transfer of Japa-

nese school's equipment such as blackboard, desks and chairs to the Project. Its disposition will be decided by former residents of Placer county.

At present there are no blackboards in the City's schoolrooms.

Director Shirrell asked that all those having access to school equipment, contact him immediately. No matter where the equipment is located, the WRA will defray the cost of transportation, Shirrell said.
